

# Free Kittens!

“Hi! My name is Frodo. And that is my big brother, Bilbo, on my left. We like playing together but enjoy a comfortable lap when we are tired. Do you have a good home for me and my brother? We would prefer to stick together, if possible.”

**Two males, white undersides with tan and black tabby backs.**

“My name is Merry. I am the cute little girl on the left. My brother Sam is behind me staring into empty space. I like relaxing afternoons and being spoiled by those that love me. My brother likes to explore and we have fun sometimes playing together. Do you have a nice home for us to stay together in?”

**One female, one male, white undersides with light grey tabby backs.**

Kittens are 7 weeks old today (July 3<sup>rd</sup>, 2002), in wonderful health, and familiar with the litter box already. Mother is a sweet and friendly cat that has successfully passed these traits onto her kittens. Prefer to find homes to keep pairings together, though not a requirement.
